

Eliminate the need for expensive robotic and festoon cables with a Flexy™ patent #8563860 slinky action cable design

Let us design a Flexy™ cable for you

- Appliances & Electrical Tools
- Electrical Machinery
- Electrical Vehicle Charging Stations
- Electronic Equipment
- Extension Cords
- Instrumentation Control Cable
- Lighting Equipment
- Marine Applications
- Medical & Dental Equipment
- Military Power and Communication Devices
- Power Supply Cords with Nema Plugs
- Recreational Vehicles
- UL Listed • NEC Certified

Proudly made in the USA
by Philatron Wire and Cable
www.philatron.com

Flexy™ cable offers the benefit of a shorter retracted length and a very long extension length compared to normal coiled cords and cables. Flexy is designed for extreme environments where exposure to temperature, chemicals, oil, fuel, abrasion and flex fatter is required. Suitable for any application you can imagine!
